

IKIGUIDE PLAYLISTS

BUILDING PURPOSEFUL TEAMS

This is for companies, organizations, collectives and more. Authentically enable your teams to bring clarity, direction and nuanced decision making in the workplace through self-discovery questions & rewarding tasks.

With this playlist, start to collect insights so you understand how to get the best out of your teams and leaders. Discover what's missing in your teams that are hindering performance, learn what motivates them, find their hidden strengths and what energizes them.

Next, help them find their purpose. See if their personal purpose align with their company, how they define success and how they want their contributions to be acknowledged. Finally, how to build habits so they can better balance their life and work.

Find the respective cards in your deck and get cracking. See what patterns emerge for you in the end and reach out to us at hello@theikiguide.com - we will help you shape your journey. We also do workshops for teams and companies to discover purpose.

THE HEART

1. Intro Card - The High
